

JUMANA P

Python Full Stack Developer

Kerala, India | edv.jumana2007@gmail.com | +91 7306519056 | Portfolio

Professional Summary

Python Full Stack Developer with hands-on experience building responsive web applications using React.js, Python, Django, Django REST Framework, and PostgreSQL. Skilled in REST API development, authentication, database integration, and reusable UI development. Experienced in developing e-commerce, CRM, community, and workspace management applications.

Technical Skills

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Redux, Tailwind CSS, Bootstrap

Backend: Python, Django, Django REST Framework, RESTful APIs, JWT Authentication, API Integration, OpenAI

Database: PostgreSQL, MySQL **Tools:** Git, GitHub, VS Code, Postman, Vercel

Concepts: MVT Architecture, Authentication & Authorization, CRUD Operations, Database Design

Education

Bachelor's Degree – Indira Gandhi National Open University (IGNOU)

Currently Pursuing

Higher Secondary Education (Plus Two) – IOHSS, Edavanna

Projects

Fashion Accessories E-Commerce Website

- **Technologies:** React.js, Tailwind CSS, Python, Django, Django REST Framework, PostgreSQL, Razorpay
- Developed a full-stack e-commerce platform for browsing and purchasing fashion accessories with a responsive React.js interface.
- Implemented user authentication, product catalog, search and filtering, shopping cart, wishlist, and order management.
- Integrated Razorpay payment gateway for secure online payments and implemented order processing after successful payment.

Bookma – Reader Community Platform

- **Technologies:** React.js, Tailwind CSS, Python, Django REST Framework, PostgreSQL
- Developed a social platform where users can discover books, share posts, and interact with other readers.
- Implemented user registration, authentication, profile management, post creation, likes, comments, and community interactions.
- Built reusable React components and integrated Django REST APIs for frontend-backend communication.

WhatsApp Follow-up CRM

- **Technologies:** React.js, Tailwind CSS, Python, Django, Django REST Framework, PostgreSQL, WhatsApp API
- Developed a CRM application for managing customer information, follow-ups, communication history, and customer status.
- Implemented customer management, follow-up scheduling, status tracking, notes, and communication history to organize customer interactions.
- Developed RESTful APIs with Django REST Framework and PostgreSQL for customer, follow-up, and communication data management.

Coworking Space Booking & Management System

Currently Developing

- **Technologies:** React.js, Tailwind CSS, Python, Django, Django REST Framework, PostgreSQL
- Currently developing a full-stack platform for discovering, booking, and managing coworking spaces and workspaces.
- Implementing workspace listings, workspace details, availability tracking, date/time-based booking, and booking history.
- Developing authentication and role-based access for users and administrators with separate management capabilities.
- Building RESTful APIs using Django REST Framework and PostgreSQL for workspace, availability, user, and booking management.

Professional Experience

Python Full Stack Developer Intern – Bridgeon Solutions LLP, Kozhikode

Aug 2025 – Present

- Developed responsive web applications using React.js, JavaScript, HTML5, CSS3, and Tailwind CSS.
- Built reusable React components and integrated Django REST Framework APIs for frontend-backend communication.
- Implemented authentication, CRUD operations, and business logic using Python and Django.
- Designed and managed databases using PostgreSQL and MySQL.
- Used Git and GitHub for version control, collaboration, and maintaining project code.
